Checks, plaids, stripes, spots, abstract patterns and florals, woven and printed, are just some of the motifs and techniques found in today's furnishing textiles.

Pattern on fabrics and furnishings is making a comeback after years of minimalism, however you can still achieve a modern streamlined look with today's textile designs, as well as create a look that is both classic and timeless.

Colour and pattern have the power to change the look and mood of a room. Mixing patterns requires skill to achieve a balanced look and choosing the correct shapes for furniture and accessories should be carefully considered before you leap in and cover your sofa in a large floral design.

Do your homework and ask for professional advice. In the meantime, here are some divine ideas to inspire.
